APPLICANT'S MOTION FOR EXTENSION OF TIME

Applicant hereby asks the Board for an extension of time of one(1) month to and including December 23, 2011, to file its main brief at final hearing and to reset the following dates accordingly.

Applicant was served with the Opposer's main brief of some 50 pages on October 25, 2011.

On October 26 and 27, 2011, Applicant's counsel began internal hemorrhaging and was admitted to Northwest Community Hospital in Arlington Heights, Illinois, at about 7:00 a.m. on October 27, 2011. The preliminary diagnosis was an abdominal ulceration with massive loss of blood. At 1:30 p.m., an endoscopic repair was completed using metal clips. Bleeding continued and does continue with blood count dropping from 14 to 9.1 and has not yet returned to

normal. Gastroenterologists Dr. Mani Mandavian and Dr. O'Riordan, Cardiologists Dr. Nissan and Dr. Bauer, and Internists Dr. Thomas Bleadsley, Dr. Kroch and Dr. Wood, have all indicated that further close monitoring of the blood hemoglobin levels in the hospital are necessary until they return to normal levels and that if they drop further, transfusions may be necessary. They also say that after return to normal levels, it will be four weeks to return to normal activities.

For the above reasons, Applicant requests an extension of time of one month to and including December 23, 2011, to file its main brief at final hearing.
